

Work Done and Responsibility

Adinan Azeez KT

- Research & Planning

- Conducted idea exploration through research papers, OpenAI, YouTube, official documentation, books, and other credible sources.
- Attended the 30-minute offline meeting for initial project planning.
- Attended the 1-hour Google Meet for idea discussion and final selection of the project.

- Documentation

- Created the project documentation template.
- Referred to IEEE guidelines and published papers for structure.
- Designed a professional documentation template with formatting guidelines and documentation standards.

- Content Writing

- Authored the Title Page.
- Wrote the Introduction section.
- Prepared Background and Motivation, including analysis of existing systems.
- Drafted the Problem Statement.

- Additional Contributions

- Designed the project logo.
- Brainstormed and proposed names for the AI model.

Abhishek TP

- Research & Planning

- Conducted idea exploration through research papers, OpenAI, YouTube, official documentation, books, and other credible sources.
- Attended the 30-minute offline meeting for initial project planning.
- Attended the 1-hour Google Meet for idea discussion and final selection of the project.

- Project Management

- Created and maintained the GitHub repository.
- Coordinated submissions and managed version control.
- Prepared and managed work distribution among team members.

- Content Writing

- Defined the Project Objectives.
- Conducted and compiled the Literature Review.
- Wrote the Innovation / Novelty section of the project.

- Additional Contributions

- Brainstormed and proposed names for the AI model.

Ihsana Ilyas

- Research & Planning

- Conducted idea exploration through research papers, OpenAI, YouTube, official documentation, books, and other credible sources.
- Attended the 30-minute offline meeting for initial project planning.
- Attended the 1-hour Google Meet for idea discussion and final selection of the project.

-- Documentation

- Compiled and formatted the complete project proposal using the approved documentation template.
- Performed final review to ensure consistency in formatting, grammar, references, and overall document quality.

- Content Writing

- Wrote the Expected Outcomes section.
- Defined the Future Scope of the project.
- Prepared the Project Timeline using Gantt Chart / Timeline Table.

- Additional Contributions

- Brainstormed and proposed names for the AI model.

Albert Jossy

- Research & Planning

- Conducted idea exploration through research papers, OpenAI, YouTube, official documentation, books, and other credible sources.
- Attended the 30-minute offline meeting for initial project planning.
- Attended the 1-hour Google Meet for idea discussion and final selection of the project.

- Documentation

- Prepared the Work Distribution and Responsibility documentation.

- Content Writing

- Defined the Proposed Methodology.
- Selected and documented the Technology Stack.
- Prepared the Implementation Plan / Project Modules breakdown.

- Additional Contributions

- Brainstormed and proposed names for the AI model.
